### **Project Name\***

*Character Limit: 100*

### **Project Description**

Please explain your project and touch on the need for this work, why this particular project or work was chosen for this grant application, the goals of this project or work, and how it aligns with the intentions of VFAF.

*Character Limit: 2000*

### **What was the intent of your project?\***

Please reflect on what you hoped to achieve with the project at the time that you applied for the grant. In what ways did you hope the project would build a highly-qualified and highly-skilled workforce in Alaska's natural resource development industries? Who did you hope to reach or serve with your project? Why did you believe the project was needed in Alaska?

*Character Limit: 500*

### **What were the results of your project?\***

Now that your project is complete, please reflect on ways in which your project actually impacted Alaska's workforce in natural resource development industries. What did Alaska's workforce gain through your project? Who participated in your project? What did these people learn or gain? How did your project build skills of relevance to natural resource development industries? How did your project build career awareness and employability skills and/or promote cross-sector skill acquisition?

*Character Limit: 500*

### **What were the unexpected successes of your project?\***

Did your project impact Alaska's workforce in the way that you intended? What were some unexpected impacts of your project on your organization, on the people your project served, and/or on Alaska's workforce and natural resource development industries? What aspects of your projects worked well, and why?

*Character Limit: 500*

### What did you learn from completing your project?\*

Please reflect on what was gained for your organization by completing your project. What did you learn about your organization? What did you learn about Alaska's workforce, Alaska's natural resource development industries, and/or the needs of both? How are you and your organization changed from having completed the project? In what ways is your organization better prepared to complete additional projects in the future?

*Character Limit: 500*
